

SAP PROJECT PULSE PACKAGE

SAP Qualified Partner Packaged Solution
for Professional Services companies

INTRODUCTION

Professional Services companies face constant challenges across project management, resource utilization, and revenue recognition. Managing multiple projects, optimizing team workloads, and maintaining profitability are daily balancing acts.

SAP ProjectPulse package by Infinus helps Professional Services companies run smarter by combining SAP Cloud ERP with industry best practices, embedded analytics, and AI-powered automation, enabling faster growth, higher productivity, and better control.

Business Values

✓ CEO Perspective

Unify all operations - finance, projects, sales, HR - in one intelligent cloud ERP.

✓ CFO Perspective

Gain real-time control over cash, profitability, and compliance: from quote to cash.

✓ COO Perspective

Optimize project execution, procurement, and resource utilization across teams.

Transforming Visions into Victories

Infinus is a SAP Gold Partner focused on SAP Business Suite solutions

www.infinus.co

Overview Pages (CEO/CFO/ COO)

Workforce Analytics

WHAT IT SHOWS

- ✓ Project status, milestones, budget vs. actuals, billing readiness, and drill-downs
- ✓ Planned work packages, efforts, resources, and billing plan (baseline for staffing & costs)
- ✓ Revenue, cost, margin KPIs with drill-downs
- ✓ Recognized revenue/COGS, WIP balances, postings for fixed-price and T&M projects
- ✓ Planned vs. posted hours per project; monitor billability and team workload
- ✓ Receivables/payables/inventory days with drilldowns
- ✓ Real-time liquidity, cash movements, and short-term projections
- ✓ Delinquency risks, overdue buckets, and payment priorities
- ✓ Revenue and profit by segment, product, or customer
- ✓ Role-based dashboards with live KPIs and alerts
- ✓ Headcount, FTE trends, turnover, and skill portfolio overview
